Notes:

* Type C shows 1900 Sft on the floor plan drawing, while the unit-size legend lists C = 1400 Sft. This discrepancy should be confirmed against the original architectural source before sharing with clients.

Types A and D1 have larger, more complex layouts (multiple bedrooms wrapped around the stair/lift core). Bedroom and toilet counts for these two are based on careful reading of the floor plan and are recommended for a final cross-check against the architect's drawing before use in client-facing material.

All other unit types (B, D2, E, F, G, H, I, J, K, L) follow a clear, consistent room layout on the plan.
